

Authority to Conduct Research

Educational research that contributes to the improvement of the educational program in the District and meets established District guidelines may be conducted by outside agencies or individuals pending reviews of the research proposal by the District research review board and with the final approval of the ~~chief academic officer~~ **CHIEF OF ORGANIZATIONAL TRANSFORMATION AND EQUITY OR DISTRICT DESIGNEE** prior to beginning the study. The approval will be provided to the applicant.

Restrictions

Research proposals may not include the videotaping of a child or the recording of a child's voice.

District Agreements

District staff may not receive compensation for participation in research activities during school hours.

Research proposals with conditional approval from the District research review board that will utilize data collected or housed by the District must complete a data-sharing agreement.

The District research study sponsor must facilitate the data-sharing agreement.

The research proposal submitted to the District research review board and data-sharing agreement must align.
